

CAMILLE CHAULAÏC

JUNIOR DEVELOPER

PROFILE

I am a Professional Bachelor's Degree student in computer science in my last year. I enjoy programming in order to answer a problem or meet a need. Dynamic and patient, I would like to specialise in web or software development.

High school diploma specialized in biology and with European section

PERSONAL SKILLS & HOBBIES

I am dynamic, attentive and reliable. I am comfortable with human relationships and I know how to adapt to the different projects available to me. I either can work in team or individual project.

I am passionate about mountains. I particularly love hiking and skiing, both alpine and nordic. I am very concerned by climate change issues and get involved as often as possible in actions to protect biodiversity (waste collection, nature site ...)
